PROFESSIONAL SUMMARY

Python Full-Stack Developer with 4+ years of experience delivering ERP and web applications across Odoo (v14–v19), Django, and React. Strong command of Python OOP, MVC architecture, REST and JSON-RPC APIs, ORM-based data modeling, and PostgreSQL. Hands-on with Docker, AWS EC2, Linux, and nginx for build and deployment. Proven track record customizing Odoo modules — Sales, Inventory, Manufacturing, HR/Payroll, and Accounting — and shipping full-stack applications with React front ends and Python/Node back ends.

Core Competencies: Odoo Development • Python • Django • React.js • REST APIs • JSON-RPC • PostgreSQL • ERP Implementation • Full-Stack Development • AWS • Docker

TECHNICAL SKILLS

Languages:	Python, JavaScript (ES6+), TypeScript, SQL, Bash / Shell
Odoo / ERP:	Odoo v14–v19, ORM, QWeb & PDF reports, OWL framework, module customization, JSON-RPC; Modules: CRM, Sales, Purchase, Inventory, Manufacturing / MRP, HRMS, Material Request, Purchase Request, Accounting; multi-company & multi-website
Backend:	Django, Django REST Framework, Node.js, Express, REST APIs, MVC, OOP, webhooks, cron jobs, model serialization
Frontend:	React, React Native, HTML5, CSS3, Bootstrap, XML, OWL
Databases:	PostgreSQL, MySQL, schema design, query optimization
DevOps & Cloud:	Docker, AWS (EC2), Linux, nginx / nginx-proxy-manager, Git / GitHub, CI/CD, Portainer
Tools:	VS Code, Postman, pgAdmin, n8n, AI-assisted development (Claude Code)
Additional:	WordPress / PHP, Power BI, PySpark

PROFESSIONAL EXPERIENCE

Python Full-Stack Developer — BinaryWaves Solutions Pvt. Ltd., Chennai Feb 2025 – Present

ERP & web solutions consultancy

- Architect and build scalable Odoo backend modules (v17–v19) using ORM, MVC, and Python best practices for maintainable, production-grade code.
- Develop REST and JSON-RPC integrations connecting Odoo with e-commerce, payment, and third-party systems.
- Build custom QWeb / PDF reports — multi-page layouts with persistent headers, footers, and signature blocks, plus regional-language (Tamil) printing.
- Customize core modules across Sales, Inventory, Manufacturing (MRP), HR / Payroll, and Accounting to match client workflows.
- Deploy and maintain Odoo on Docker and AWS EC2 with nginx reverse proxy and PostgreSQL.

Python Developer — AbSafe IT Solutions, Chennai Apr 2024 – Jan 2025

IT solutions & custom software

- Customized and implemented ERP modules (Projects, CRM, HRMS) to streamline internal operations.
- Built full-stack features pairing Python / Odoo back ends with JavaScript and React front-end components.
- Developed a WordPress website with custom-built plugins to meet specific business requirements.

Python Developer — INSOFT.Com Private Limited Jun 2023 – Apr 2024

E-commerce & ERP services

- Delivered e-commerce and ERP solutions on Odoo for a baby-products retailer.
- Customized Odoo modules, integrated e-commerce features, and improved inventory management.
- Built data-driven reports to support business decision-making.

Python Developer (Trainee → Developer) — Xmedia Solutions Pvt. Ltd. Mar 2022 – May 2023

Software & ERP development

- Developed Odoo modules for manufacturing and hospital-management ERP.
- Integrated DICOM medical-imaging workflows (OHIF Viewer, Orthanc, pydicom) with Odoo.
- Built a Rasa-based conversational chatbot for automated user interaction.

KEY PROJECTS

Woory MES — SMT Manufacturing Execution System (BinaryWaves' Own Product, End-to-End Development)

- Building BinaryWaves' in-house MES product end to end — database design, microservice APIs, React UI, and Docker deployment — digitizing an SMT electronics production line with SAP ERP integration.
- Business flow: Vendor Portal / ASN → Gate Entry → GRN → incoming QC (pass → putaway; fail → return / rework / scrap) → live inventory with SAP sync → production planning & work orders → station-wise production execution with lot / serial traceability.
- Developed shop-floor modules: solder-paste lifecycle tracking (thaw → mix → viscosity → issue), stencil validation, digital check sheets, Andon alerts, and real-time machine / device integration over Socket.IO and serial interfaces.
- Implemented a Node.js microservices backend (DB, Gateway, Production, Device services) with Prisma ORM on PostgreSQL and JWT-secured REST APIs.

Skills used: *React, TypeScript, Node.js, Express, Microservices, Prisma ORM, PostgreSQL, Socket.IO, REST APIs, SAP Integration, Docker, nginx*

Silliconz Manufacturing — SMT Manufacturing ERP

- Built an integrated Odoo + React application digitizing a Surface-Mount Technology (SMT) electronics manufacturing process.
- Customized Odoo modules across CRM, Sales, Purchase, Inventory, Manufacturing, HRMS, Material Request, and Purchase Request.
- Developed custom reports and connected Odoo to the React frontend via REST / JSON-RPC APIs.

Skills used: *Python, JavaScript, XML, Odoo, React, PostgreSQL, REST / JSON-RPC APIs*

SarDe Traffic — Manufacturing ERP for Traffic-Safety Products

- Delivered an Odoo manufacturing solution for traffic sign boards and warning guards.
- Built production-planning and manufacturing workflows for the production line.
- Designed a custom estimation process and estimate report to quote and track manufacturing jobs.

Skills used: *Python, XML, Odoo, MRP / Manufacturing, QWeb Reporting, PostgreSQL*

Daisy Hospitals — Hospital Management ERP

- Engaged across the full project lifecycle, from requirement gathering to post-implementation support.
- Developed a custom billing module generating invoices with prescription and treatment calculations.
- Implemented ERP modules covering admissions, billing, inventory management, and patient records.

Skills used: *Python, XML, Odoo, Reporting, PostgreSQL*

Event Management System

- Customized an Odoo-based event-management website with booth-management and membership-management features.
- Implemented PayPal payment integration, booth booking, and event registration.

Skills used: *Python, XML, Odoo, Website Builder, PayPal API Integration*

AbSafe IT Solutions — ERP Product Development

- Part of the team building a product-grade ERP suite spanning CRM, Sales, Purchase, Accounting, Warehouse, and Inventory modules.
- Developed the platform using Django (backend) and React (frontend) with REST APIs over PostgreSQL.

Skills used: *Python, JavaScript, Django, Django REST Framework, React, PostgreSQL, REST APIs*

EDUCATION & CERTIFICATIONS

B.E., Electronics & Communication Engineering

2017

AVIT, Vinayaka Missions University, Chennai

Python & Django — Kaashiv Infotech

2021

Machine Learning & Data Science — Kaashiv Infotech

2022
